

Thrive Outdoors by Beautifying Your Yard

Jump on the bandwagon and save money by doing it yourself!

Imagine the warm breeze on your face, the smell of fresh grilled vegetables and the laughter of friends and family as you gather outdoors on a newly decorated yard. You boast how you spent the last few weekends installing the courtyard retaining walls, and just finished up the new faux-flagstone patio and walkway. They look in awe at the gorgeous array of colors and shapes lining your new backyard and try to calculate in their heads how much it must have cost you. You smile to yourself, knowing that you saved a lot by doing it yourself and choosing just the right products.

The rustic charm and unmatched flexibility of Keystone's Potenzo Stone® retaining walls make them the first choice of any do-it-yourselfer. Keystone set out to create a simple to install retaining wall with a great degree of random layout options. Each unit has multiple pin position allowing for ultimate design flexibility. Keystone's Potenzo Stone® is available in a variety of colors and offers an attractive finish that provides a unique natural stone look.

Another elegant product for the do-it-yourselfer is the new Artisan Flagstone by Basalite. This authentic-looking flagstone comes in four distinct colors; perfect for creating pathways, patios and interesting garden features. Artisan Flagstone is thin and light-weight compared to other pavers and easy to install all while being very reasonably priced. Thriving outdoors is just steps away!

A Do-it-Yourselfer will be pleased to know that they have a chance to WIN a 20x20 hardscape oasis consisting of Keystone Potenzo Stone® walls and Basalite Artisan Flagstone for a value of \$5,000 just by attending Basalite's FREE how-to-clinic at Brickyard Building Materials in Concord. Join the friendly team at Brickyard Building Materials in Concord on April 18th.

Log onto www.thebrickyard.com for more details on how you can win!
